**DRIVEN** by vision

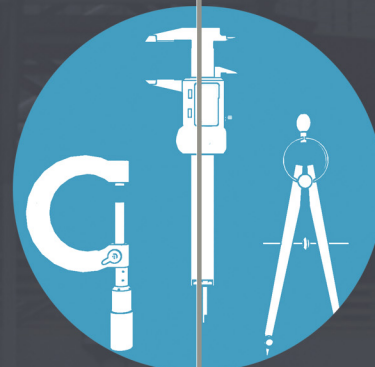

# CHOOSE THE RIGHT PARTNER FOR YOUR VOYAGE

IN 1955, R.G. LETOURNEAU launched the “Scorpion”, the world’s first independent leg offshore jackup rig from the banks of the Mississippi River, heralding a new age of offshore drilling. Today, with over 60 years and more than 230 jackup rigs under our belt, Keppel LeTourneau continues this legacy of excellence by delivering innovative yet robust jackup designs, electrically driven deck cranes as well as jackup rig components.

## KEPPEL LETOURNEAU WILL BE WITH YOU EVERY STEP OF THE WAY

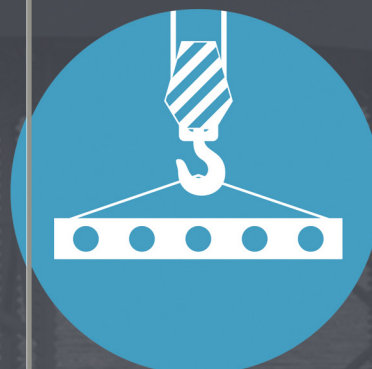

### Design & Planning

From concept to completion, Keppel LeTourneau can take you through every stage of your project. Be it conducting general feasibility studies, customizing a LeTourneau jackup design or assisting with construction yard selection, we will ensure that your project is a complete success.

### Construction

Our rig kit and licensing packages offer market flexibility in enabling you to select the best construction facility for your needs. Leveraging our global network or third-party shipyards, our on-site technicians uphold our high standards for installation and commissioning of your new rig kit equipment.

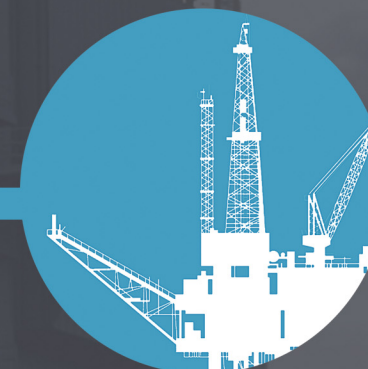

### Mid-Life Operations & Maintenance

Our ready supply of OEM spare parts, together with our experienced engineers and technicians located around the world, will ensure that your rig kit equipment is well stocked, well maintained and operations ready.

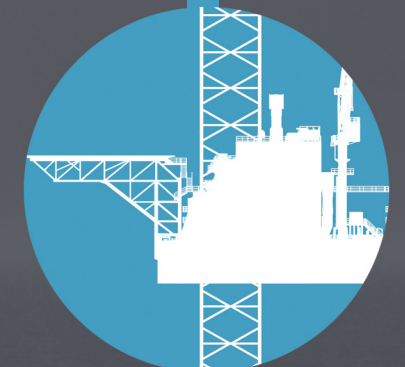

### Life-Cycle Services

Whether you have a LeTourneau designed or third-party jackup, Keppel LeTourneau provides the technical expertise to enhance your assets value to meet evolving industry and regulatory demands.

### Life Extension & Re-Purposing

Regardless of the age of your rig, we will be able to extend her useful drilling life through equipment, crane, and hull upgrades. Beyond drilling, we are able to re-purpose your rig and give her a new lease of life.
