

LETOURNEAU

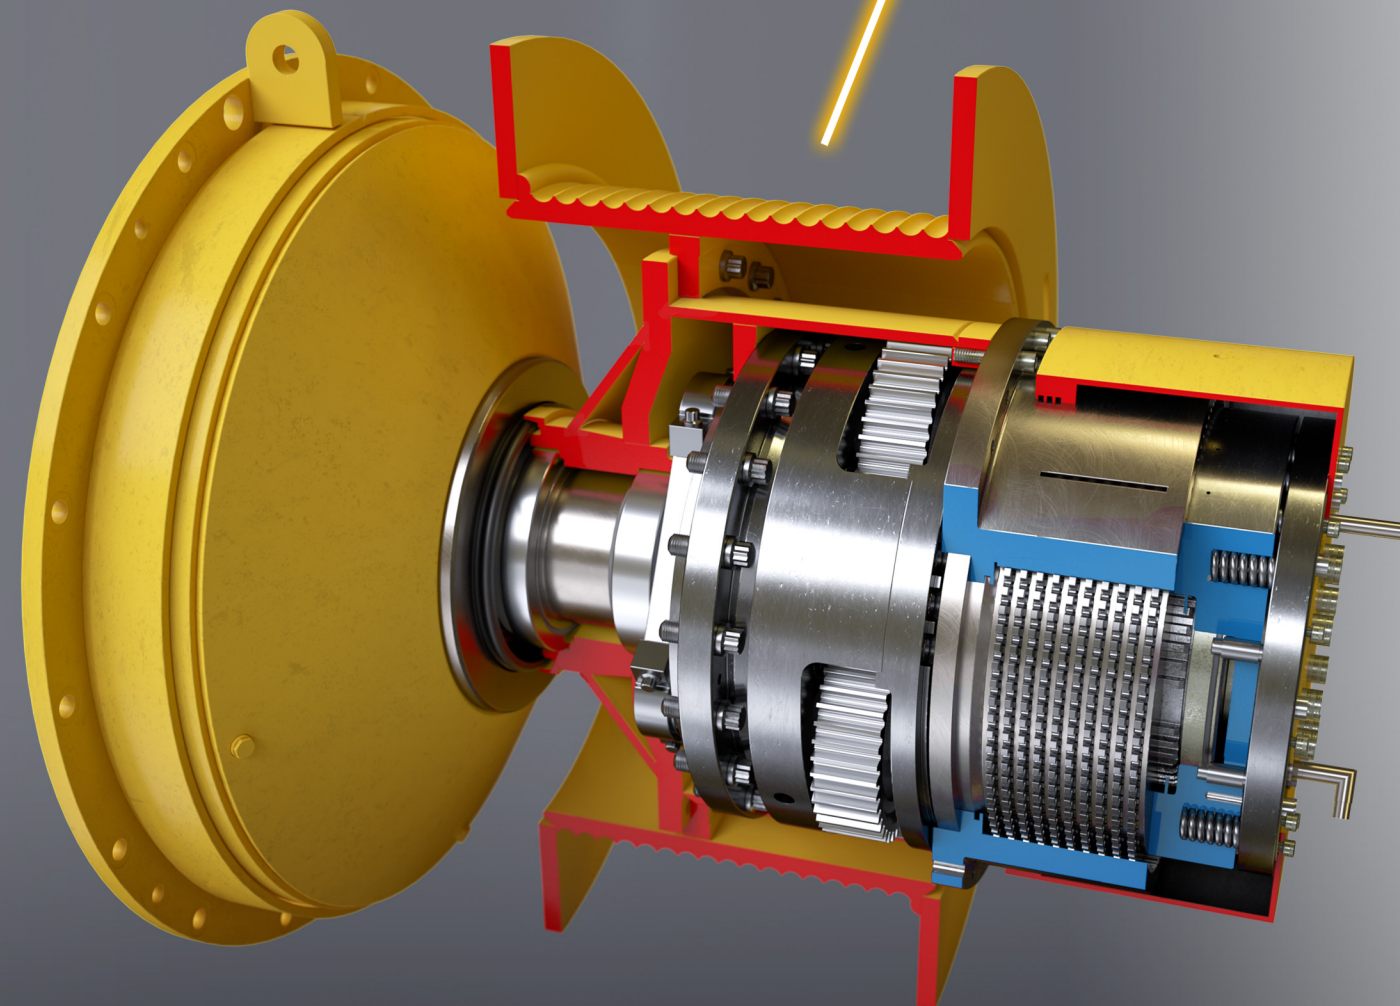

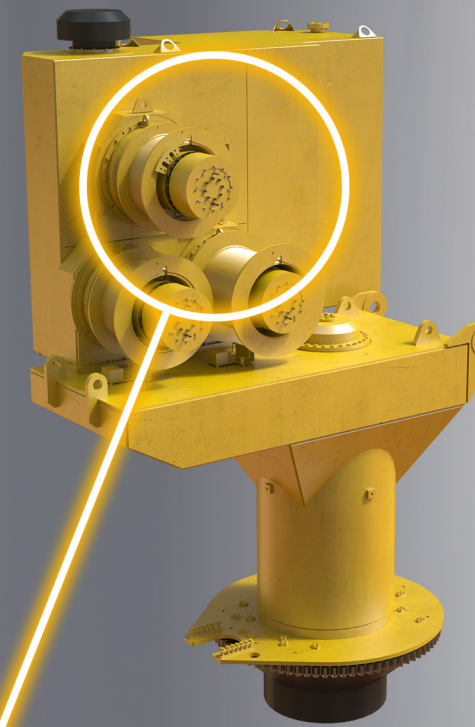

A Keppel Company

Secondary Brake
Upgrade Package
For LeTourneauTM PCM-SS Cranes

Features

- Provides secondary braking through independent load path at the drum
- Fail-safe design: spring set/hydraulic release
- Modular configuration for installation on boom, auxiliary and/or main hoists
- Proportional braking for power-loss load lowering of any hoist
- Pre-assembled gearbox/brake unit minimizes field installation downtime
- Compatible with existing wire rope drum, motor, and primary brake
